

Meeting Notes:

We like Mock-up A

- Dramatic
- Textured

Suggestions:

- Give each section more breathing room
- Increase margin spaces
- Make the home page a secondary page and the recommendation page the main
 - Make the photos on the old home page color
- Potentially create more pages dedicated to each genre
 - Give context to each genre
 - Organize these extra pages into a hamburger thingy-ma-bob :)

- For the mobile version, make the recommended be centered on the page and have the extra peep from the sides
 - Make it so it slides through them infinitely

Potentially:

- Play around with making the description for the recommended shows slide down
