## Project Title: Telenovela's Website

I'd like to build this site as multiple pages, rather than a long, single page website. Typical site navigation probably across the top. I want it to semi-imitate a streaming service of some kind in the way it shows its content, listing out videos in grid-like formats. Each page potentially embodying a different Telenovela aesthetic.

- **Home Page/Introduction** – It introduces the origin of Telenovelas and how the style of serial drama has evolved and spread over the world
- **Genres**
- **Recommended Telenovelas** – list out most popular telenovelas organized by country
- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
